CONDITION OF STAMPS

IN COLLECTIONS & ACCUMULATIONS:

- Any such lots may contain some material with faults, which is taken into account when setting the reserves & estimates on such lots.
- Description of condition of such lots is on the basis of what is the prevailing condition of the material ie: “Mostly F-VF” means some faulty items as well. Our descriptions will usually not specify the condition of individual items included in collection lots, nor will we specifically mention any faults/defects that they might have.
- As is the rule with all public auctions; collections, accumulations & mixed lots are not returnable.
- We encourage bidders to view such larger lots before auction, have somebody view for them, or ask us for extra information.
- We are always happy to answer any queries about specific stamps that are in a particular lot & their condition and/or provide scans of better items.
- Also, we are happy for bidders to phone us during the viewing times (but not on auction day!) and ask for expanded description of any lots. One of our describers will then take out the lot and go through it with you on the phone answering any questions about contents, condition etc.

CONDITION OF COVERS / CARDS etc:

Postally used covers/cards can be expected to show some wear consistent with their age and travel through the mails such as filing folds, backflap or edge faults from opening, slight reductions etc. Unless severe or affecting stamps, these will not be mentioned, and are not grounds for returns.

1165 1989-1990 Cycling 37c UNISSUED self-adhesive stamp printed as an essay for Australia's 1st "peel & stick" but using wrong denomination & never issued due to rate increase. The original artwork for the Cycling stamp was for a 37c denomination but this was changed to 41c for the issue of the normal perf stamps, & it appears that when the 1st self-adhesive stamps were made the printer by mistake referred to the 37c artwork instead of the 41c perf stamps & so the self-adhesives were done as 37c in error!
